Subject: Re: Request for Data Validation of Tier IV Lab Data for Dimock Residential Well Site

John

Your response was appropriate. Spoke with Dave and Cindy and they have agreed to review the micro data. The other parameters may be reviewed by ESAT or EPA. That decision still needs to be made.

Fred

Fred:

1. I was called on Friday by Gene Nance and asked questions about labeling, validation etc., and referred him to the lab-Kevin to be specific since Stevie was out..
2. The tier IV validation request submitted by Gene on Friday was given R33917 (attached) and responded to by Colleen that they would have a problem with the micro portion.
3. I talked to Dave Russell about prospects of his performing the micro portion of the request and he said that he would bring it up to Cindy C. today.

John,

We will need to look into this validation.

Subject: Request for Data Validation of Tier IV Lab Data for Dimock Residential Well Site

John,

Attached is a request for Data Validation services for Tier IV-procured laboratory services. If EPA/ESAT can provide the services, please provide the assigned DAS project number(s) as soon as feasible so we can get the Forms2Lite set up accordingly.

Thanks.
